David Ovidio Rubio Caballero

BACKEND & AI SOFTWARE ENGINEER

AI-focused Software Engineer with experience building ML-powered applications and backend systems using Python, TypeScript, and AWS. Skilled in LLMs, data processing pipelines, and deploying AI solutions in cloud environments. Currently advancing expertise in Kubernetes and container orchestration, alongside implementing CI/CD pipelines for production-ready, scalable systems. Passionate about delivering robust, end-to-end AI and backend solutions.

EXPERIENCE

■ Software Developer With AI Tools (Intern) - Mixreal | Madrid, 2023 - 2024

- Developed backend services and AI-driven features using Python and AWS.
- Designed and integrated backend APIs using Node.js (TypeScript).
- Deployed and tested cloud-based solutions using EC2, S3, and Lambda.
- Collaborated in an Agile team environment.

SKILLS

• Languages:

Python • TypeScript • Java • C#

• Backend and APIs

Node.js (TypeScript) • FastAPI • Flask • Django • Spring Boot
RESTful APIs • Microservices Architecture

• Cloud & DevOps

- AWS (EC2, S3, RDS, Lambda, SageMaker).
- Docker & Kubernetes (K8s).

• AI & Data Engineering

TensorFlow • PyTorch • Hugging Face • Scikit-Learn • Seaborn
Pandas • NumPy

• Software Engineering Practices

Agile (Scrum) • Git • CI/CD

• Soft Skills:

Teamwork • communication • problem solving • adaptability
